## MAIN FACS SOFTWARE MODIFICATIONS

The following software modifications will be in production on Thursday, January 9, 2003:

- DAFR2091 R★STARS Mass Change Report has been modified to accurately display the “Error Correction Records In” for each batch agency. When more than one batch agency had error corrections, the counts on the first and last page were not correct.
- Software modifications have been made to a R★STARS batch program. The modifications will not be apparent to end users.
